

STOIC EVENTS
YOUR VISION, OUR MISSION

Introduction

Hello,

My name is Colin Maclachlan and I am a former SAS soldier with over 25 years of security and risk-related experience, I also appeared in Channel 4's SAS: Who Dares Wins and Channel 5's Secrets of the SAS.

I want to thank you for taking the time to review this brochure. I am personally excited to share our vision for your event and our experience as former Special Forces soldiers and armed forces veterans will ensure it is an experience like no other.

I want to ensure that this event and experience is tailored specifically to your needs as an organisation and as a team. I want to understand the specific areas that you want to improve so that we can tailor the mission and activities to bring measurable change and improvements in those key areas. Our experience is more than just a military Bootcamp, my Directing Staff and I will draw down on over 50 years combined experience in the UK Special Forces whilst serving in some of the most diverse and hostile environments across the globe. Now it's your turn to harness that knowledge and the Special Forces Mindset.

We want to ensure we deliver the best package and experience for you and your team, so please feel free to contact us to discuss any areas of this proposal that need further clarification.

"Our Directing staff can take your Company mission, and make it into a phenomenal experience with tangible results."

We look forward to hearing from you,

Who Dares Wins

Kind Regards

Colin Maclachlan

Next Steps

Upon selection of a package, a detailed work back schedule will be provided, with key deliverable dates. A service agreement and invoice for 50% of the overall fee will be sent for signature and payment.

Get in touch for a bespoke quote based on the activities you require. Once received we can send a quote and proposal for your perusal. We will then begin planning and booking the activities for the big day.

Please note, no experience that we deliver is ever the same. It is bespoke to every organisation. We would schedule a video call to discuss the areas you would like us to focus on improving within your team/organisation. Any specific details will be discussed and we can then develop a tailored event that has measurable outcomes, thus improving your team and your business as a whole.

If you have any questions please reach out. We want to ensure this is the perfect event for you and your team.

My Directing Staff and I look forward to seeing you soon.
